Client Question	How do I notify Worldsmart Retech of an Ownership Change?
Issue Summary	Intermediate Change Of Ownership

WELCOME TO WORLDSMART RETAIL.

We understand you are about to take ownership of a business that utilises the market leading Worldsmart Retech software.

We would like to take this opportunity in welcoming you to the Worldsmart Retech family and to let you know that we are here to help you with your business needs and support issues.

This software is an integral part of the running of your business and we would like to make sure that all the relevant information, software configuration and training is in place prior to you actually taking ownership.

This document contains the common forms you need to complete and outlines the steps in the process. Some steps are needed by all customers and some are optional depending on your circumstances. If you require any help with completing these forms please do not hesitate to contact Julie Cuskelly.

Worldsmart Retech does not require complete new software licences to be purchased by the new owner; simply a \$300 + GST charge to cover the licence transfer. This also includes 10 days free access to our national software support call centre to help you make the transition. The following is also included in this charge:-

- Data Sheets on how to send ABN and New Store name to Registers
- No Obligation Quote on Annual Support Agreement
- Eftpos Terminal ID changes over the Phone
- Administration Charges.

In order to continue using our national software support call centre and receive product upgrades, you will need to complete a Software Support Agreement which will be sent to you once you have completed and returned these forms.

Any questions on this process, contact Julie Cuskelly on 07 3340 2500.

Welcome to the Worldsmart Retech family, we look forward to helping you make your business successful.

Kind Regards
Worldsmart Retech
